NOTICE OF PUBLIC HEARING
concerning

**RENEWAL OF WASTE DISCHARGE REQUIREMENTS
AND TIME SCHEDULE ORDER
(NPDES NO. CA0083241)
FOR
NEVADA COUNTY SANITATION DISTRICT NO. 1
CASCADE SHORES WASTEWATER TREATMENT PLANT
NEVADA COUNTY**

Nevada County Sanitation District No. 1 (Discharger) owns and operates the Cascade Shores Wastewater Treatment Plant (Facility) that discharges up to 0.026 million gallons per day of tertiary-level treated effluent to Gas Canyon Creek, a water of the United States. Discharges from the Facility are currently regulated by Waste Discharge Requirements (WDR) Order R5-2008-0111. The Discharger could not comply with the final copper effluent limits; therefore, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) granted additional time to achieve compliance in Time Schedule Order (TSO) R5-2010-0909.

The Central Valley Water Board will consider renewal of the Discharger's existing NPDES Permit, WDR Order R5-2008-0111. The proposed NPDES Permit contains turbidity specifications for a membrane filtration system and effluent limits for copper and zinc with which the Facility cannot immediately comply. Therefore a TSO to extend the time schedule to achieve compliance with the copper effluent limits, and to provide a new time schedule to achieve compliance with the zinc effluent limits, is proposed. The Central Valley Water Board will consider whether the proposed turbidity specifications are applicable and appropriate or whether alternative specifications can be applied while fully protecting the beneficial uses in the receiving water.

A public hearing concerning this matter will be held during the Central Valley Water Board meeting scheduled for:

DATE: 16/17 April 2015
